

UCL

## Summer School in Ophthalmology

This course is aimed at medical students, junior doctors and others who are considering a career in ophthalmology.

17 – 23 July 2019

### Course details.

This course will be presented by consultant ophthalmologists from Moorfields Eye Hospital and other leading clinicians, as well as UCL scientists. The course will cover interesting clinical and ground breaking scientific aspects of the discipline.

The course will be offered in a mixed format including a practical day where students will be taught to use specialist equipment for common ophthalmic problems.
